## ALL ASPIRATORS HAVE:

- Locking valves to control vacuum
- A holding capacity of 60CC
- 10 CC increments to measure evacuated contents
- Ability to maintain vacuum for at least 30 minutes

## MISCARRIAGE MANAGEMENT KIT

An MVA ideal for emergency departments, ambulatory surgery centers, and office-based settings. Single use, pre-packaged, simple, and portable.

### KIT INCLUDES:

- 1 Ipas Double Valve Aspirator
- 4 IPAS EasyGrip® Cannulae (6, 7, 8, 9mm)
- 3 Denniston Dilators (5/6, 7/8, 9/10 mm)

Item Code: UEK

## MVA PLUS®

Reusable (< 25 uses). Only MVA in the world that tolerates heated methods for processing (i.e., autoclave or boiling water). Processable by cold methods such as Cidex® or Sporax® II.

Item Code: PLUS

## DOUBLE VALVE MVA

For customers who prefer the simplicity of single-use devices. A low-cost and flexible option. The device is compatible with cannulae sizes 4-10mm and 12mm.

Item Code: DVSSU

THE ONLY  
DOUBLE VALVE MVA  
MANUFACTURED IN A  
USFDA INSPECTED AND  
REGISTERED FACILITY

## ALL CANNULAE ARE:

- Available in 8 diameter sizes (4, 5, 6, 7, 8, 9, 10, and 12mm)
- Color-coded by size
  - Ready to use
  - Disposable
  - Sterile

Item Code: SR#SU

## IPAS EASYGRIP®

Semi-rigid cannulae with integrated winged base

Item Code: FC#SU

## FLEXIBLE KARMAN

Adapter set required; purchase separately.

Replace item code # with diameter size

## DENNISTON DILATORS

Reusable, steam autoclavable at 250°F, and processable by cold methods — Cidex® or Sporax® II.

### INCLUDES:

Set of 5 double-ended, tapered dilators (5/6, 7/8, 9/10, 11/12, 13/14mm)

Item Code: DD

## ADAPTER SET

Set of 5, for use with the Flexible Karman

Item Code: ADPSET

## PLUS ACCESSORIES

Replacement parts & silicone for the PLUS aspirator.

Item Code: AKPL

Code: SILICONE
